

## PRECISION ENGINEERING

From design to construction to finishing – Giltrap's focus is on quality and excellence from start to delivery.

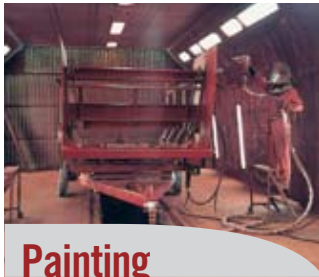

Product finishing highlights this commitment. All Giltrap machines are painted twice with high build primer, followed by a "two pack" polyurethane finish. High tech electrostatic painting ensures even paint cover – right down to the tightest corners.

The result is a product we can proudly say will outlast all its competitors, in design, finish and performance – a machine you will be proud to own and operate for years to come.

**Sandblasting**

High pressure blasting removes mill scale, rust and oil residues, preparing the steel surface for good paint adhesion.

**Painting**

Electrostatic painting ensures even paint coverage. A rust inhibiting primer is followed by a durable gloss two pack polyurethane for a long lasting finish.

## SERVICE

Our extensive dealer network ensures easy access to a full range of parts and accessories – no matter where you are in Australasia.

## WARRANTY

All Giltrap machines feature a 12 month warranty on parts and labour. Giltrap technicians are available for service queries any time you need them. We build our machines based on what you need to make work easier on your farm – tell us what you want, we'll listen and we'll act.

## OTHER PRODUCTS IN THE RANGE

Our products are tested to their limits every day in all extremes that you are used to working in. You tell us what you want and we listen.

Forage wagons

Tip trailers

Effluent trailers

Cutter / mixer / feeders

Lifestyle toppers

Pasture toppers

Bale feeders

## UTILITY PRODUCTS

Wood Splitter | Transport Tray | Eezy Hitch

INNOVATION BORN ON THE FARM

DEALERS NATIONWIDE

# WOOD SPLITTERS

MORE WOOD, SMARTER, FASTER AND SAFER...

The Giltrap Wood Splitter is engineered to be strong and safe, with a solid, heavy duty main beam.

## Hydraulic ram

Double acting 90mm hydraulic ram.

## Splitting wedge

Unique splitting wedge, solid high-tensile casting.

## Work bench

Wide work bench area, to cope with the big logs.

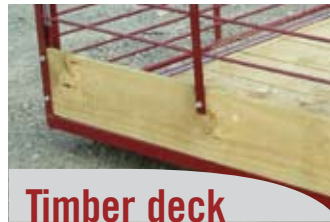

## Other features

- 3 point linkage mounted to enable unit to be easily positioned at any height to suit logs and load area, and to reduce operator fatigue.
- All hydraulic hoses supplied with ISO male couplings.
- Hand held control for exceptional safety when splitting.
- Auto cut outon retracting ram.
- Handles logs up to 500mm in length
- Minimum Hydraulic Requirements - 20 litres per minute 200 PSI.
- The Giltrap reputation for reliability and strength.

# SPEEDY HITCH TRANSPORT TRAYS

QUICK HITCH, NO FUSS

Minimise your down time with the tray that attaches and removes without having to get out of the tractor seat.

## Timber deck

Heavy duty 25mm treated timber deck.

## Stock crate

Stock crate with easy slide gate and removable sides.

## Steel sheet front

Full steel front - swaged galvanised sheet steel at front keeps tray clean.

## Speedy Hitch

Safe, solid, innovative attachment won't budge under the roughest conditions.

## SPECIFICATIONS

Sizes	2.13m x 1.37m
Section runners	100 x 50mm box steel
Mounting bar	supplied – Cat I or II

# EEZY HITCH

SAVE VALUABLE TIME WITH THE 3 POINT LINKAGE TRAILER HITCH

Combining high load capability and a clean, simple design, this 3-point linkage hitch gives operators excellent vision while connecting to a trailer draw bar and very good manoeuvrability during operation.

## Visibility

The Giltrap Eezy Hitch has a clear visibility of the towing pin, making it easy to attach the trailer.

## Versatile

Feedout equipment attached to the Eezy Hitch can be lifted for feeding into bins or troughs.

## Other features

- Rated for use on trailers up to 7000kg GVM.
- Interchangeable Category 2 or 3 towing pin.
- Case hardened wear plate where the towing eye rests.
- Clear view to pin and latch.
- Suitable for most 3 point linkage hitches.

Overall Length	280mm
Overall Width	910mm
Overall Height	820mm
Weight	48kg
