

# Chainless 4000™

## Square and Round Balefeeder

- Two bale feeder
- Unique, patented total control loading system
- Infinite variation in feed control
- Will handle a huge variety of bales
- Heavy-duty drive system: all sprockets, shafts and chains
- Heavy-duty 6 stud axle assembly
- High tensile steel used in chassis and components
- A unique fork position indicator for easy bale aligning
- Only 2 sets of double-acting hydraulics are required
- High ground clearance and clean under-chassis
- UV resistant and non-corroding polyethylene platform

Optional third tyne for 8' long bales

Optional extension bars for bales up to 8' long

Heavy-duty rear pivots

Optional string box, wide wheel & tractor grip wheels

Diverter valve gives 3 functions from 2 double-acting remotes

Indicator simplifies bale loading

360° swivel eye & heavy-duty drawbar

**The Chainless 4000** Patents apply\*

The Chainless 4000 is a trailed two bale feeder that carries one bale on the rear tynes for transport and one on the cradle ready to feed.

**TOTAL CONTROL LOADING** Patents apply\*

Unlike other loading systems on the market, Hustler's total control loading system controls the bale throughout the entire loading sequence, allowing you to safely handle any size of square or round bale.

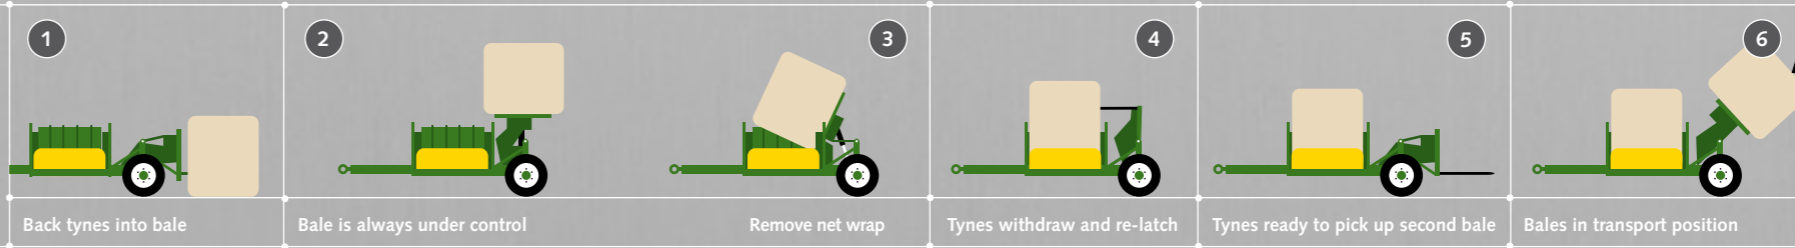

The Chainless 4000 requires only two sets of double-acting hydraulics as found on most tractors. Our simple valve system splits the hydraulics to power the feed rotors, platform height adjustment and bale loader. This ensures the bale can ONLY be loaded when the platform is down.

### CHAINLESS 4000 SPECS

|   |
|---|
| BALE SIZES ROUND: 4' X 4' - 6' X 4'                                     |
| BALE SIZES SQUARE: all sizes up to 8' long                              |
| BALE WEIGHT: up to 1000kg X 2   |
| UNIT WEIGHT: 950kg  |
| HYDRAULICS REQUIRED: 2 X double-acting, 12-60 litres/min, 2250-3000 psi |

- OPTIONAL EXTRAS:**
- Wide wheels
  - Tractor grip wheels
  - Mudguards
  - String box
  - Extra tyne
  - Extension kit for bales over 6'6" long
