

SL-700 Round Balefeeder

2 bale feeder
Massive 12,000lb zinc-plated roller chains
Unique, patented total control loading system
Replaceable zinc-plated RHS chain bars
Enclosed rollers
Direct-drive system
Heavy-duty drawbar
High ground clearance
High strength steel chassis

Optional wide track & tractor grip wheels

Massive 12,000lb roller chain, shown compared to conventional chain

Outboard double sealed heavy-duty 4-bolt bearings

Fully enclosed non-corroding floor eliminates feed waste

Optional bolt-on safety bars

360° swivel eye & heavy-duty drawbar

The SL-700 Balefeeder

The SL-700 Bale Feeder is a larger trailed unit with a heavy-duty chassis able to carry two bales. It has the same simple and reliable feeding mechanism as the smaller SL-350.

TOTAL CONTROL LOADING

Like the Chainless 4000, the SL-700 features Hustler's total control loading system. This controls the bale throughout the entire sequence, allowing you to safely handle any size of round bale.

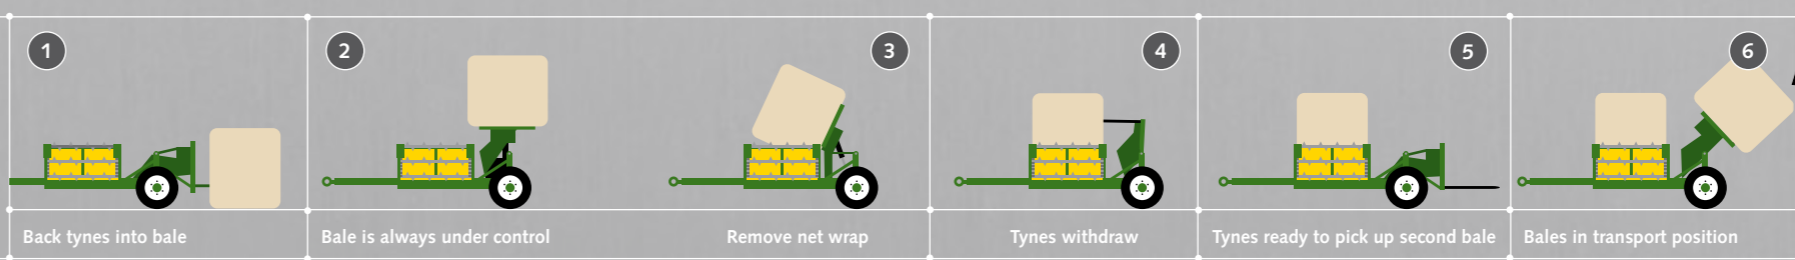

Transport one bale on the rear tynes and one on the cradle ready to feed. A low centre of gravity gives the SL-700 good stability.

SL-700 SPECIFICATIONS

BALE SIZES ROUND: 4' X 4' - 6' X 5'
BALE SIZES SQUARE: requires optional side bars
BALE WEIGHT: up to 1000kg X 2
UNIT WEIGHT: 880kg
